> ➢ **Singles Feuds**
> ➢ **Tag Feuds**

Notes and Acknowledgments

This is a sneak preview of a section of my book only for the Kickstarter supporters who supported my project which I'm currently titling "Wrestlenomics". I decided to ship this draft of my hodgepodge of stats on Jim Crockett Promotions/WCW 1983 through 2001. As dead promotion(s), it provides a nice opportunity to work in a "closed-spaced" environment knowing that we're not going to see further name changes or new events that I need to add to my dataset. Originally, the information spanned over 200 pages, so I condensed the font and tried to organize the information into two columns in a cleaner way. This is one area I'm looking for specific feedback on; does this work? Is it too small?

The information I used for these statistics were gathered from the "Ring Results" section of Graham Cawthon's excellent website "The History of the WWE" in his JCP/WCW Section. I spent a lot of time separating out the results, combining names and gimmicks and fixing small spelling changes to generate this information. It's always a work in progress.

The book is still coming along. I'm working on pieces that answer reader questions, pieces that look at creating regressions against pricing and people, pieces that just accumulate a lot of facts, and other tidbits. The version you're looking at here is very, very dry – just names and stats. I do intend to add some commentary and call out some interesting findings for the final product. Right now, this is more "proof of concept" – how many pages would this many years of stats take, what is the proper formatting, did my exports all work correctly or are there notable mistakes and misses?

So, send your feedback to me (chris.harrington@gmail.com)and let me know if this looks good. Ideally, I will be publishing results for this covering a variety of federations including TNA, SMW, ECW, AWA, Florida and of course WWWF/WWF/WWE.

Thanks for your patience & support.

Chris
